Jay at Silly Lily Fishing Station in East Moriches said the fluke season was closed with a variety of fish in the cut. Many goalkeepers have been caught, along with a lot of action on shorts too. On Saturday there was a large bite on the stripper in the input. The mermaids used clams and artificially, along with live baits for this action. This will be the last weekend for the station to offer rentals etc. Jay and the staff would like to wish all an upcoming holiday season very safe and happy. They will be ready in the spring, so stay tuned! In dick words at Dick's B&B T in Mastic Beach we learned that the stripper action continues to please anglers with action in input and ocean. The inputs are produced on clams, eels and other live baits, while in the ocean, Diamond Jigs or swimming shads are your best bet. More December 7, 2020 - 4:57:17 Paulie at J&J Sports in Patchogue talked to me about the good salmon fishing going on in West Lake right now. Fish are being caught on live shiners and nightcrawlers. The recent fall drop gives the mermaid a good chance to catch fish throughout the winter months. He also mentioned that Connetquot State Park is offering some great flying fishing opportunities and recently his clients have noticed a large number of large stream salmon being caught on the river. More November 23, 2020 - 9:34:34PM From Billy at Chasing Tails Bait and Tackle in Oakdale, we heard the cold is officially here and the strip season is diminishing, but that doesn't mean fishing is bad or bites are off. From Billy at Chasing Tails Bait and Tackle in Oakdale we heard the cold is officially here and the strip season is descending, but that doesn't mean fishing is bad or bites are off. Larger fish have moved into deeper waters, and are continuing their migration. A lot of schoolies to slit sized fish are still roaming around. The beaches are dotted with bass-grabbing Diamond Jigs and all day long allfish. At night, most of the mermaids are switching to Darter or Bottle plugs. On the boat you'll have to go deeper but they are there and they're eating up jigs, and popping plugs when they're busting on top. Black fish and bass are the mostly late autumn and early winter fish, and they're very aggressive and hungry right now. Blackfish can be found on all local structures, both internally and externally. They're chewing crabs and love jigs, and custom store rigs. Snakelish are coming on the tracks all day. The bass action is going very well, with a lot of big fish coming. The store is open all winter, so get down. From Kurt at Willie K Bait and Tackle at Bay Shore I heard there were still a few bass around, with fish taking jigs in the ocean. There are still some black fish around, but when the water is cool, the fish will start moving to the offshore pieces. The store will be open until the end of December for any gift-giving ideas you need to fill out. Kurt and Toshiko wish everyone a safe and happy holiday season. Heh, they make a nice bend in the bar as well, so the action is still fun! On the bass front, there are in the ocean mostly, with a lot of smaller fish on the mix. The black fish remains on the inside pieces, taking the green crab. The store is now closed for winter and the entire staff wants to wish everyone a safe and happy holiday season. Since most winter shows probably don't take place, the store has opened a Captree Bait and EBay Tackle page for any tackle and cake you may need. More November 23, 2020 - 9:34:34PM Stephan's Ocean Vue Charters reports the boat will continue to provide charters for bass and bottomfish until about the first week of December, where it will head south to NC to fish for the giant bluefin. The boat will stay in NC until April when it will return to Captree for bass. For more information, check the information @oceanvuei instagram or www.ocean-Vue.net. For the most part, the b... At Bergen Bay Docks in Babylon, I heard from Scott who reported the striped bass action continued to please sea mermaids and just inside the air intakes of Fire Island. For the most part, the bite was on the jigs, but do not neglect to drop a living point into the fight. Blackfish can be found in the areas of Moses Bridge, Mercy Wreck and Kismet Reef inside, while outside the wrecks and little-known pieces will be your best bet.
